PROFESSIONAL EXPERIENCE

AI Full Stack Developer

Mindcase

Intern

Aug 2024 – Nov 2024

- migrating Supabase backend to Microsoft Azure with **Prisma**
- worked on GenAI document generation application

Software Developer

Avanti Fellows

Intern

Oct 2023 – Mar 2024

- Developed a quiz creator and college predictor using **Next.js** and **Tailwind CSS**, reducing manual input.
- Created secure API endpoints for **data retrieval and submission**, enhancing data security by 50%.
- Implemented CRUD functionality with pagination, improving session management efficiency.

Open Source Developer

Code4GovTech

Intern

Jul 2023 – Aug 2023

- Eliminated dependence on **Google Sheets** by developing a user interface for stakeholders, increasing operational efficiency.
- Designed and implemented the interface using **Next.js** and **Tailwind CSS**.
- Enhanced team collaboration for quiz-session creation, reducing setup time .

Google Summer of Code

Jde-Robot

Participant

May 2023 – Aug 2023

- Developed a cross-platform desktop application using **Electron.js**, enhancing accessibility.
- Deployed backend within a **Docker image**, improving deployment efficiency.
- Enabled application access across **Windows and Linux**, expanding user base.
- Coding Journey and Blogs

PROJECTS

Koursed | Full Stack Development

Tech Stack: Next.js, MUI, Recoil, MongoDB, AWS

Live

Mar 2024 — Jun 2024

- Developed a comprehensive online learning platform using Next.js and TypeScript, achieving a 30% increase in development speed
- Integrated secure authentication using NextAuth.js, ensuring data privacy and security
- Managed scalable data storage and retrieval with MongoDB, optimizing performance for large datasets.
- Deployed and managed the application on AWS, with CI/CD using github actions

E-commerce application | Frontend Development

Tech Stack: React.js, Redux, RTK, MUI

Live

Jan 2023 — April 2023

- Developed an e-commerce site using React, ensuring a seamless shopping experience across all devices with responsive design.
- Implemented user authentication using Firebase, providing secure login and registration functionality.
- Integrated multiple search functionalities, enhancing product discoverability and user satisfaction.

TECHNICAL SKILLS

Languages: Typescript, Java, HTML/CSS, SQL, Javascript , Sass

Frameworks: NodeJS, Tailwind, Express, ElectronJs, ReactJs, NextJs, ReactNative, Tailwind CSS, MaterialUI

Libraries: Redux, Recoil, React Hook Forms, Zod, Lodash, Moment.js, GraphQL, Cypress

Developer Tools: AWS, Git, Github, Postman, VS Code, Github Actions, TurboRepo

EDUCATION

SRM Institute of Science and Technology

Bachelor of Technology in Computer Science and Engineering

8.5 CGPA (Current)

Sept 2020 – Jun 2024

ACHIEVEMENTS & CERTIFICATIONS

- Hackathon Winner:** Secured #1 in the Institute-level round of the “Smart India Hackathon (Sept 2023)” organized by AICTE, followed by a regional qualification; and victory in the Institute-Level “Solving for India Hackathon (April 2023)” organized by Google Cloud, AMD, and GFG.
- Selected as an exclusive cohort member in “Code 4 GovTech”, actively contributed to government-funded projects
- Google Summer of Code 2023 participant
